

FUME EVENT SAFETY PROCEDURES

STEPS TO TAKE IN THE UNLIKELY (1 IN 2000) EVENT OF FUMES ON YOUR FLIGHT.

www.aerotoxic.org

THE AIR YOU BREATHE ON THIS FLIGHT IS TAKEN FROM THE ENGINES. FOR YOUR DISCOMFORT, IT IS NOT FILTERED

IN THE EVENT THAT THE CABIN FILLS WITH TOXIC FUMES, PLEASE REMAIN CALM AS YOU EXPERIENCE NAUSEA, HEAD PAIN & TINGLING IN EXTREMITIES

PLEASE DO NOT TRY TO FIND A SUPPLY OF CLEAN OXYGEN - YOU ARE NOT OBLIGED TO HAVE ANY, THE MASKS ARE FOR DECOMPRESSION ONLY

PLEASE STAY IN YOUR SEAT- DO NOT ATTEMPT TO SEEK ADVICE FROM THE CABIN CREW - THEY ARE NOT ALLOWED TO BELIEVE IN FUMES.

WHEN YOU LEAVE THE AIRCRAFT, PLEASE EXPECT NO MEDICAL ATTENTION, OR FOLLOW-UP FROM THE AIRLINE COMPANY.

YOU ARE NOW ON THE SLIPPERY SLOPE OF AEROTOXIC SYNDROME. YOU FEEL AWFUL, BUT THE AIRLINE DENY THAT THIS IS A PROBLEM.

NOTE HOW QUICKLY THE AIRLINE SPOKESMAN CAN RUN FROM THEIR RESPONSIBILITY. YOU WILL NOT SEE THEM AGAIN.

PLEASE VISIT WWW.AEROTOXIC.ORG TO FIND OUT MORE ABOUT THE ISSUES SURROUNDING AEROTOXIC SYNDROME.
