Support Dr Sarah Myhill Campaign Launched

By Jane Bryant

Updated 18 April 2010

I'm livid! I'm banging my fists in FURY on my desk this Sunday morning in London UK at the constant harassment of Dr Sarah Myhill, MB BS, by the wretched General Medical Council (GMC) quango. This most excellent doctor is a lifeline support for many thousands of patients, particularly those suffering from the much misunderstood illness of Myalgic Encephalomyelitis/Chronic Fatigue Syndrome (ME/CFS) whom she treats with respect, compassion, kindness, understanding and consummate professionalism.

No patient has ever complained about Dr Myhill. Yet certain pig-sick jealous doctors skulking disreputably in the shadows seem to be making it their shoddy life's work to do Dr Myhill harm without any just cause by making anonymous complaints about her. This latest assault is a GMC Interim Orders Panel that is trying to rip Dr Myhill's medical licence off her whilst refusing to allow her to defend herself. She is to be presumed guilty without trial. This goes completely contrary to the law in Britain and represents stunning injustice.

I've had enough of this. Many thousands of us have. So to this end I am today using the enormous power and reach of the One Click health advocacy pressure group to help this good doctor by launching the **Support Dr Myhill Campaign**. Do you think it's wrong for her to be persecuted like this by the awful GMC quango? Do you like the work of One Click and frequently read the information published on our website? Then please get involved to help Dr Myhill.

For the many thousands of doctors that read One Click, please remember that this could happen to you too. Any time. For those based in the UK, you are actually personally paying for this GMC obscenity. Do something about it.

Take a look at Dr Myhill's website at www.drmyhill.co.uk and see what she does. Click on the link [HERE](#) to see what the GMC has been trying to do to Dr Myhill for years. Read Dr Myhill's Open Letter to us all published below. Let your fingers do the walking. Rain emails down at the GMC address provided below in such quantity that the GMC servers collapse. Ring them up. Fax them. Please help to orchestrate such a protest cacophony that the GMC never dares to hassle Dr Myhill on such spurious and risible grounds again.

From wherever you live in the world, please sign the [Witch Hunt Of Dr Sarah Myhill Petition](#), currently standing as at 18 April with 1848 signatures and rising. All signatures welcome from all countries. This, my friends, is an international initiative like no other. It has already garnered over a thousand signatures in a matter of days.

GMC Breaches Data Protection Act

It has recently been placed in the public domain that the GMC have been taking the private and confidential NHS medical records of Dr Myhill's patients without their knowledge or consent. This has naturally worried many. This has been done without informing patients, nor asking permission, without anonymising the notes, nor informing the patient of their legal right to object to this action. Would you like to find out if the GMC has taken your private medical records? Please see typical DPA request letter you can source [HERE](#) to force the GMC to give you this information. Good luck.

GMC Hearing And Demo

The GMC Interim Orders Panel Hearing against Dr Myhill will be taking place at 9.30am on Thursday, 29 April 2010. Seats requests for the hearing have been oversubscribed by many times and there are no more are available.

Do not lose heart, dear friends. You too can make your presence felt by joining the Dr Sarah Myhill Demo at **13.30pm** on the day, all agreed by the Camden Police.

Here are the Demo details:

Dr Sarah Myhill Demonstration

Time: 13.30pm

Date: Thursday 29 April 2010

Venue: Outside the GMC offices at Regent's Place, 350 Euston Road, London NW1 3JN

Map: See [HERE](#). Relevant tube stations are Great Portland Street, Warren Street and Euston Square. The nearest National Rail stations are Euston and King's Cross St. Pancras.

Demo Coordinator: Ruth Myhill at ruth.lyreco@yahoo.co.uk

Please email Ruth Myhill using the above address to express your interest and let her know if you will be attending.

One Click will shortly be publishing details of the Demo content and what you can expect. I suggest that you all make a nice day of it. There are some good (and cost-effective) places to have lunch before the Demo, behind the Euston Road on the opposite side.

Conclusion

Remember that this is the good doctor who broke her neck in a riding accident a few years ago. So steadfast was she and so concerned for the welfare of her patients that she was back at work after just two weeks, so great is her dedication. It is time for us to pay this dedication back.

Please give the GMC such a bloody nose that they never try to pull a stunt like this again. Please help Dr Myhill by joining hands across the world to protect this doctor that cares and has done so much good for so many. Please continue to email the GMC in droves.

ACT NOW!

Thank you.

[Open letter about my GMC hearing April 2010](#)

Dr Sarah Myhill

April 9th 2010

Dear All

Re: The GMC is about to withdraw my licence to practice

On Thursday, April 8th 2010 at 10am I was ordered by the GMC to attend an Interim Orders Panel on Monday April 12th with a view to withdrawing my licence to practise (Case Reference: PB/C1-314994282). The GMC have now postponed this initial Hearing to April 29th. It will be in London at 09.30 on Thursday 29 April 2010 at the offices of the General Medical Council, Regent's Place, 350 Euston Road, London NW1 3JN. Under Section 33a of Imposing Interim Orders April 2008 Guidance I have asked that the IOP be held in public

One week ago I received a complaint about my website, to which I have yet to reply. However, on the basis of this unsubstantiated complaint by an anonymous complainant (I am told the name but not who he/she is), the GMC have decided that "there is a potential risk to public safety". There are no specific allegations, I am not being allowed to defend myself against any such allegations, I may have to wait a further 18 months for such a hearing when my licence could then be restored, i.e. I am presumed guilty until I can prove my innocence. This is the opposite to normal English law.

No patient has complained, no patient has been harmed and no patient has been put at any risk of harm. However, should I lose my licence, patients will certainly be put at risk of harm; partly because they will be denied access to medication essential to their well being, partly because they will lose access to tests and partly because I will be unable to support patients in applications for DLA and other such medico-legal issues.

I have applied for a postponement on the grounds that the time scale is too short for me to appoint representation. The GMC's normal practice is to give doctors seven days' notice.

PLEASE HELP! By

Emailing the GMC on pbridge@gmc-uk.org

[Ed. note: Please **bcc** copies of your emails to the GMC to Craig Robinson at craighrobinson@hotmail.co.uk, who is collating information regarding Dr Myhill's defence]

Telephoning Mr Paul Bridge on 0161 923 6417

Faxing Mr Adam Elliott on 0207 189 5177

Post to Mr Paul Bridge, General Medical Council, 3 Hardman St, Manchester M3 3AW

quoting Case Reference: **PB/C1-314994282**

To say:

That you find the website a helpful source of information; that your health will be put at risk if you are unable to avail yourself of my services as a doctor; request to attend a future Fitness to Practice Hearing to give evidence that you have been helped by information from my website. Ask the GMC to acknowledge your concerns.

If my licence is withdrawn then I will continue to practise within the limitations laid down by the GMC. In reality my advice to patients will be unchanged, but I shall not be so empowered as to put in place all the interventions that so many patients have found helpful! Please, fight alongside me. I have to remain cool, calm, and collected in my dealings with the GMC, but you can get angry and emotional – so please do! I will keep you all updated on my website.

Best wishes,

Sarah Myhill
