

Treating Autism 2nd International Biomedical Conference and Exhibition

Bournemouth International Centre March 12th to 14th 2009.

<http://www.treatingautism.co.uk/events/>

"This is an amazing conference. We learned so much. Our son has now fully recovered" Sandy and Tim, Conference Delegates 2007.

"Before biomedical intervention my son was unhappy 90% of the time. Now he is happy 90% of the time.", Conference Delegate 2007

"Treating Eli and Christian biomedically has literally turned my sons' lives around." Conference Delegate 2007

Two information-packed days of presentations by the most important names in the effective treatment of autism from around the world and including parents' Stories of Success. Our fantastic line up includes:

Bryan Jepson MD author of "Changing the Course of Autism"

Dr Andrew Wakefield, international expert on autism and the gut

Natasha Campbell McBride author of "Gut and Psychology Syndrome"

Karen deFelice author of "Enzymes and Autism"

Professor Boyd Haley, international expert on metal toxicity

Dr T Michael Culp, international expert on SNPs (single nucleotide polymorphisms)

Dr Lorene Amet, Chief scientist and practitioner at Autism Treatment Trust

Dr Anton Van Rhijn, world renowned homeopath, successfully treating children with autism

Dr Magdala Cubala-Kucharska, who has busy and successful DAN practises in Poland and the United Kingdom.

We will also present parents with remarkable stories of recovery. Learn about the biomedical treatments that are helping children with autism in the UK today become more healthy, happy and even recover from autism. Every delegate will leave with practical and, importantly, affordable biomedical approaches to help alleviate pain, anxiety and to help communication. These two days of presentations, plus a **Meet and Greet** on Thursday evening and the **Treating Ourselves Party** on Friday evening will offer you a wonderful chance to help your child (or yourself!) and to network with other parents and professionals.

In addition, each delegate bag contains a complimentary copy of Bryan Jepson's book "**Changing the Course of Autism**" as well as discount vouchers and full conference presentations.

Coming to conference on your own? We can link you up with people from your area for car shares and hotel bookings and we'll be on hand throughout to make you welcome. The Treating Autism conference is a great opportunity to meet people in similar circumstances and share information. The Meet and Greet and Treating Ourselves events are also wonderful opportunities to touch base with parents and practitioners. Email us after you've booked on treatingautismuk@aol.com and we'll try and match you with other people from your area or country.

Refer a Friend after you've booked and we'll send you a copy of Jenny McCarthy's new book "Mother Warriors" free. Just make sure your friend emails us with your name after they've made their booking.

Reduced price accommodation available, download our booking form.

Join Treating Autism - not only do you make great savings on the conference fee, you also receive our regular newsletter, get great discounts on supplements at Nutricentre and priority booking for all Treating Autism events. Membership generally pays for itself almost immediately.

Conference information is also available in French, German, Italian, Russian, Spanish and Turkish - check out our Useful Documents section at www.treatingautism.co.uk .
