Selected UK MPs Deny Medical/Political Information

Update: Subsequent to the publication of this MPs list by One Click, Barbara Keeley, Labour MP for Worsley, has made contact and elected to receive the medical/political information published by the group that benefits her relationship with her constituents. Barbara has therefore now been removed from this MPs list. Well done!

9 June 2008

The One Click Group publishes today the list of UK Members of Parliament who have denied receipt of the medical/political information that matters so much to so many of their constituents.

Is your MP on this list?

When the One Click pressure group began its activities five years ago growing to the worldwide interactive [raw news hub](#) that it has become today, we began to receive copious correspondence from the UK Electorate complaining about the behaviour of their elected representatives in many instances and praising the activities of others.

We were told by many that quite a number of these politicians were simply refusing to listen properly to the plight of their constituents, especially in relation to Autism (1 UK child in every 150 so diagnosed) and ME/CFS (240,000 UK patients so labelled) amongst other ancillary issues such as political and medical corruption.

By overwhelming demand, The One Click Group therefore proceeded to place every single UK Member of Parliament on to our [News Alerts](#) distribution list to keep them informed of the needs and interests of so many of their constituents. There are over 600 plus MPs in the UK.

These MPs are in good company. The material published by the One Click pressure group is read on a daily basis by multitudinous thousands of people around the world every day of the week.

Equally, the One Click News Alerts are distributed to many thousands of opinion formers - inclusive of worldwide media, departments of health such as the CDC et al, doctors, academics, charities, writers, companies, institutions, patients and their carers, families and friends - around the globe.

Of the 600 + MPs in the United Kingdom, 30 of their number to date have decided not to receive the medical and political information published by One Click - 17 Labour, 12 Conservative and 1 Liberal Democrat.

Eric Joyce, the pompous Labour MP for Falkirk, became extremely abusive in correspondence with One Click. Joyce has had the dubious honour of being outed as the most costly MP in the country, notching up Westminster's highest expenses and allowances, spending £30,000 on air fares. One must question as to whether our money is being well spent on Eric Joyce.

Have you had a good experience with your MP? A bad one? Have these politicians paid for by us helped you or hindered you? Please write to The One Click Group at mail@theoneclickgroup.co.uk to inform us of your experience.

Come the next General Election in the UK, we will be publishing further MP details in order to inform the Electorate. The communications and lobbying facilities provided by the internet are a wonderful thing.

The One Click Group
