

June 1, 2009

Dear Friend & Colleague of NVIC:

On Oct. 2-4, 2009 the National Vaccine Information Center (NVIC) will be hosting the Fourth International Public Conference on Vaccination at the Hyatt Regency Hotel in Reston, VA (near Dulles Airport) in the Washington, D.C. area. The theme is "Show Us the Science & Give Us a Choice."

At this critical moment in history when doctors, government officials and drug company lobbyists are preparing to challenge non-medical vaccine exemptions and laws are being passed to enforce use of swine flu and other experimental vaccines during government-designated "public health emergencies," NVIC is providing an international public platform for discussion of critical issues regarding vaccine safety and informed consent. We hope you will come to help families and health care providers at the conference network and organize with you in your state (or country) to protect vaccine exemptions.

State and nation flags will be posted throughout the conference ballroom to allow attendees to sit together throughout the conference. There will also be evening advocacy training sessions led by experienced consumer advocacy lobbyists to brainstorm with you about effectively educating your legislators about vaccine safety and the need to protect or expand vaccine exemptions. Buses will be going to Capitol Hill on Monday, Oct. 5 if you want to make appointments with your federal legislators or new Administration officials and voice your concerns.

NVIC has made a significant investment to secure more than 35 credentialed speakers in the areas of vaccine science, policy, law, and ethics from the U.S. and others coming from as far as the UK, Italy, Kenya, Japan and Canada, to make a national and international statement about the importance of protecting the human right to informed consent to vaccination and the freedom to make voluntary health decisions. We hope you will pass the attached Conference Sponsorship package to those you know, who may want to be sponsors of this important vaccine education and freedom conference. Strong sponsorship support will ensure the vaccine safety and informed consent movement will continue to expand and gain strength in the coming years.

Please register at www.NVIC.org before June 30 to get a special Early Bird registration rate of \$195. The conference hotel room rate is a low \$95 for the Hyatt Regency Hotel, which is unbeatable for a first class hotel in the Washington, D.C. area.

We look forward to working with you at this one-of-a-kind gathering at the turn of a new decade. Whether we will be legally free to make informed, voluntary vaccine decisions in the 21st century will likely determine whether we will be free to make other health choices as well. Don't miss this opportunity to empower yourself with information and inspiration to stand up for your right to make those choices and inspire others to do the same for themselves.

Yours in health and freedom,

Barbara Loe Fisher
Co-founder & President
